

SMS Morning and Afternoon Procedures

*Doors to the middle school are set to open at 6:45 each day. Students may enter through 1)the main entrance, 2)the breezeway doors by the cafeteria, or 3)the 5th grade doors by their commons area. Students arriving prior to 7:30 are required to go to the auditorium.

*At 7:30 students who want to eat breakfast in the cafeteria are dismissed from the auditorium. Also at 7:30, 5th/6th graders who are not eating breakfast are excused to their grade level commons areas. 7th/8th graders who are not eating breakfast stay in the auditorium as it is their commons.

*By 7:40, traffic becomes more congested and getting in and out of parking lots takes longer. We ask that parents exercise extra caution and patience as more students are making their way through parking lots into the building. To ease traffic through parking lots, you may choose to drop students off curbside near the manned crosswalks.

*Any students arriving after 7:30 are required to either go to the cafeteria for breakfast or to their respective grade level commons area. At 8:00, students are released from their commons areas to head to 1st period. Any students arriving to campus at that time should report directly to 1st period.

*This year, you should notice a wide walkway painted across the main parking lot of the middle school. This area is for pedestrian access only and all parking is prohibited. Drivers should proceed through this area with extra caution.

*In the afternoon, parents are free to pick up students in all areas. The main parking lot can become congested so other locations are advised. Again, parking in the striped pedestrian walkway of the main lot is prohibited.

*In the p.m., parents of 5th graders may prefer to park in the East lot between the stadium and the middle school, or along the curb near the 5th grade section of the building.

*All parents/guests are restricted to only entering the building through the main entrance, regardless of the time of day.
